Daily Message of Mary, Rose of Peace, transmitted in the city of Avila, Castilla y León, Spain, to the visionary Friar Elías del Sagrado Corazón

May in these days, you be able to drink, as from a fountain, the spirituality and the religiosity of Saint Theresa of Jesus.

May your souls be able to experience inner transverberation, and in this way, be able to feel the conversion of the heart.

The Holy Spirit will offer the Grace of liberation from a terrestrial and human aspect. For this reason, unite to Saint Theresa of Jesus, ask for Her intercession so that this liberation may proceed.

Today, I offer to all those consecrated, with My rosary of Light, the devotional to Saint Theresa of Jesus, so that it may be prayed by hearts, seekers of inner transverberation.

This devotional, which you already know, will bring you closer to the essence of the spirituality of Saint Theresa of Jesus. In this way, your consciousnesses will be helped by the humble intercession of the Servant Theresa of Jesus.

Let the paths of Theresa of Jesus be your paths and let your lives someday achieve the spirit of simplicity.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
