DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE MARIAN CENTER OF AURORA, PAYSANDU, URUGUAY, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

Death is permeated by a Law, the Law of Disintegration.

That law is applied at the moment in which the bodies enter into the mortal and spiritual ambit and, little by little, they are prepared to live the detachment from all the terrestrial life, to pass, right away, to the beginning of a spiritual judgement, where all the human life experienced is evaluated.

That moment is important, because the consciousness is before a synthesis, and from there, everything is defined.

Death is the passage to new spheres of experiences that are accompanied by the angels.

Therefore, praying beside the dying helps in the detachment of their consciousness and assists the elevation of their being toward schools of mental, soul and spiritual maturity.

If all of that is accompanied by prayer and by the unction of the expired body, by a priest, everything will rise more quickly and certain terrestrial forces will not intervene in attracting the consciousness towards the Earth.

Unction is the vehicle that allows the total release.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
