**DAILY MESSAGE OF MARY, ROSE OF PEACE AND UNIVERSAL MOTHER, TRANSMITTED IN THE CITY OF SAN ESTEVE - MONTSERRAT, BARCELONA, SPAIN, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN?**

**The time for change and the change of times**

Just like the sun rises on the horizon, so will be the sign of the change of times, and the change will come abruptly from overnight.

Inexplicable situations will happen with the planet, with the Kingdoms of Nature, and with humanity.

The planetary consciousness will experience a last apex of illumination and of wisdom, which will help before the last and great cycle of purification begins.

The change of times will be seen not only on the planet, but also in this local Universe, formed by this part of the solar system to which you belong.

It will be a change of the entire race, which by universal Laws will be swept into a great change in consciousness. This change will bring about unexpected effects, and only those who have lived through prayer will be able to understand it and nothing will torment them.

The change of times is something that has been foreseen by the Father from the beginning, from the moment in which Adam and Eve experienced original sin. From that point on humanity was led to experience free will, which has always placed it in intense experiences and in extreme situations.

This change of the times is also generated as from the place where current humanity is, and above all, by the indifference it has expressed through every feeling, thought, and action.

The hypnotism which I have spoken to you about, dear children, is the fundamental root of this state of indifference which places the world at a level of deep spiritual precariousness.

All warnings have already been issued, but the incessant deafness of the consciousnesses puts pressure on the time of the Universe to move forward with a great planetary shift.

The Universe has a principle of Hierarchy, as well as the Laws having this. When that principle is interfered with on any plane for any cause, the Laws come together to correct and cause to flow that which the Universe considers disordered.

The change of times will require an inner definition from everyone, but I see how the creatures of the Earth feel they must abandon their lives to experience a change, and although some consciousnesses need to take that step, the majority moves away from the Purpose so as to not confront their own definition when faced with the Plan.

This change of the times is not personal or human, it encompasses the arena of the cosmos and the purpose of the human races.

The change of times reaches the planet to correct the deviations and the evils of humanity, but those who pray, the devotees, and those faithful to the Plan will be able to help in this cycle through the support of what is about to fall upon humanity: a decisive change.

All beings who pray on the planet must learn to co-exist with the change of times, because as everything is purified within or outside consciousnesses, the need to remain in prayer and vigil will be greater.

There will be no continent, nation, structure, or religion free from the change of the times. Unbelievable things will be seen in different sectors of humanity, as well as in the consciousnesses that so far have kept their own actions secret.

Nobody will be able to escape the change of times because that change is universal and is part of the Apocalypse.

The change that will come will make clear what is good and also what is not good. Everything will be purified, corrected, and resettled in their proper place within the material Universe.

The whole planet and the race are still in time, before that great and profound change of the times, to correct their material life, their inner world, and their consciousness through the great flow of prayer.

This change of times will bring humanity into a new stage and vibration after everything has been purified.

Those who try to resist the change of times in their own life, environment, or existence will suffer, because they will be going against the flow of the universal Laws.

Those who are willing, striving to change, and become peaceful, will be able to follow the change of times.

Remember, My children, that this change originated at the moment humanity believed itself to be self-accomplished before the universe.

All of this is part of a lesson in humility.

Blessings to all My children of Argentina!

I thank you for responding to My call!

Your Mother Mary, Rose of Peace and Mother of the Universe
