DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, TO THE VISIONARY SISTER LUCÍA DE JESÚS????

At the beginning of Creation, only Unity existed, the Divine Consciousness that dwells where there is no time or space, where there is no matter, feelings or thoughts, where there is only Spirit.

Without ceasing to be Unity, the Spirit of God is multiplied. This is Omnipresence.

Without ceasing to be Spirit, the Mind of God is born, manifested in the Archangels. This is the work of Omniscience.

Without separating from the levels of Spirit, God manifests the Light in material creations. This is the fruit of Liberation.

God, who was One, divides into three, without ceasing to be One. His Transcendence is incomprehensible to the human mind.

God the Father became the Son and, in Transfiguration, He multiplies His Only Son into all creatures. All are One with the Father, through the Son.

The primordial principles take on a life of their own and creative power. The Rays become consciousness and dwell in all the particles that exist in the cosmos.

God never lost the Unity of the beginning. His multiplication has no end, it has no limit. His Consciousness is expanded beyond the boundaries of spirit, mind, and matter. His Divinity permeates everything.

You may ask yourselves: "How can the Creator dwell in a world so full of darkness? Where is God when chaos rushes into the world?"

God is the Life that dwells within the essence, the Consciousness that animates those who are aware, the Light that gives shape and life to that which the eyes of the not blind can see.

A person may not be blind, but if there is an absence of light in their lives, they will not be able to see. It is not that the world does not exist, that colors do not exist, that life does not exist: what is happening to that person is that they are separated from the light. They are not blind, they are simply stuck in a dark and empty room and do not find a way to open the windows or do not even know that there are windows in the room of their consciousnesses.

This is what happens with the majority of humanity. Ignorance and indifference have shut the human consciousness into a dark room and all the mysteries of life are outside, ready to be revealed at the moment the window of the consciousness is opened.

As they are not blind, they think they see everything. As they do not know the light, they do not

know they are imprisoned in a dark room and they think life begins and ends within the four walls of that room.

Love, service, and prayer reach the darkness of those consciousnesses like chinks of light that come through the window, revealing that the window exists and that behind it there is a great mystery.

Some can see the light through the chink and believe they already know everything; others will dare to open the window and contemplate the view before them. The consciousness will be deeply expanded, in spite of only seeing life before their small window.

Up until today, there has been almost no one willing to leave that room, pioneering in the world outside of themselves; for this reason, the mysteries continue being mysteries.

I began this message with some words that are capable of opening a small chink in the dark room of the consciousness, but I know that many will close the window with their own hands to thus remain in absolute darkness.

Reflect upon what I tell you and, in the eyes of your hearts, try for an instant to risk feeling this mysterious ray of light, this small chink that opens in the consciousness.

If you allow your consciousnesses to expand, I will be able to lead you more truly to the union with God. You will be able to be more truthful in everything and unveil mysteries, including about yourselves and about planetary life.

For the growth and maturing of the human consciousness and its adherence to the Truth,

The Most Chaste Saint Joseph
