**DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, TO THE VISIONARY SISTER LUCÍA DE JESÚS????**

Children,

As long as there are negative experiences in the human consciousness, there will be purification to be lived. The old man is being expurgated from your inner worlds and, more than that, from your cells.

Many want to transform themselves and cannot bear to see in others their own mistakes. This incapacity to see themselves in a mirror generates rage, indignation and sadness. But I tell you, companions, that this human reaction in face of purification is fruit of an old pattern to deal with inferior aspects.

The new man must emerge at the same time in which the old one is expurgated, that is, the patterns of behavior of a new life must start taking the place of the old human patterns. This means, children, that - when looking at yourselves in a mirror, through mistakes and aspects of the other - you must love them and be compassionate.

Put reins and brakes on yourselves by means of the comprehension and of the love to the Plan, that surpasses the own love and will to control and guide all things.

When reacting towards the mistakes of others, you are wanting to fix a mistake by making another one. This is the same principle that generates wars and the conflicts of the world: hate towards the other is the fuel that ignites hate in one's own interior, this hate is often hidden and subconscious.

In order not to enter in this circle of rage and darkness, contain your own oxidizer and replace it by interior pacification.

I know that many have difficulties in controlling themselves and their own inferior aspects, but you have to try to do it every day until your consciousness definitely understands the smallness you live in face of the universal vastness and can take more concrete steps.

I would like to talk to you about universal things, but how am I going to take you to the universe, if your feet are tied to the world of earthly appearances and if your consciousnesses do not encompass the essences of the beings, but only their shortcomings and the human conditions?

All are in the same school and each one on their level must listen to what I say today and consciously work on their own incapacity to love and to self-control.

Children, when at least you start dealing with yourselves with more maturity, I will be able to take you to the Cosmos and deepen yourselves in the universal roots. But first you need to grow up, everybody needs to grow up, including those who consider themselves grown-ups and old. Grow up in spirit and in virtue.

Your Father and Friend,

The Most Chaste Saint Joseph
