DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED AT THE MARIAN CENTER OF AURORA, PAYSANDU, URUGUAY, TO THE VISIONARY SISTER LUCÍA DE JESÚS

When God, the Almighty and Powerful, made Himself small and fragile within the Womb of the Most Holy Mary, He was not only paving the way to seal a new and eternal covenant with humanity, the Creator was revealing a mystery and making Truth alive, which had always been spiritual and that, at that moment, manifested as something physical and palpable for humanity.

God was revealing His presence within humanity. He was revealing that, through His Spirit, He could awaken within beings a new human being, which renews and revives humanity, which had died, even though it was alive. God was revealing the possibility of a second birth, a spiritual birth, in which those who are aware of the presence of His Spirit allow Him to manifest Himself.

Through the Birth of Jesus, the Creator awakened, revealed and gave humanity the possibility of experiencing Truth. Those who are pure of heart, humble and willing to be instruments of God, willing to fulfill His Will, above all things, are worthy of expressing within themselves the presence of the Holy Spirit and, this way, they may little by little reach the true potential of humankind.

The Creator did not create you to express what you live on Earth today. This life is the faithful mirror of the ignorance of human beings, but those who open themselves to Truth and are willing to be reborn in spirit, expressing in life the perfection of the Spirit of God, will be able to receive and live the revelation of the Truth about themselves, even if they never know for sure what it is that lives within them.

Children, open to rebirth in the Spirit of God, that you may be reborn in Him, and He, as a divine response, may awaken within you.

You have My blessing for this.

Your Father and Friend,

The Most Chaste Saint Joseph
