DAILY MESSAGE OF THE GLORIFIED CHRIST JESUS, TRANSMITTED IN THE CITY OF MINAS, LAVALLEJA, URUGUAY, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

Companions,

The universe has and holds a history, that most do not know, but which is visible and real to the Eyes of God.

This history is part of different learnings and experiences that marked the process of evolution forever.

A history through which the great Creator Fathers have worked in order to be able to reverse it from the spiritual plane where it was gestated.

For this reason, the Creator Fathers themselves took charge of finding a solution because, for this life system on Planet Earth, these histories would need to be worked upon further in order to be modified and transformed, because the weight that duality generates makes of this history a state and a process of purification or of resistance, similar to a cosmic or stellar event.

Through this, I want to express to you that this moment has already come and this moment is now, a place and space in which all human beings will truly come to know themselves and will be able to become aware that it will be necessary to experience change, but a change from the consciousness, so that it may then be experienced throughout the rest of the being.

To face this moment and this history is to be facing something that would seem incredible, but that the higher being of each consciousness lives, experiences and remembers all the time.

The only key is to accept that which is beyond comprehension and the capacity to love it or not; in this way, through this attitude, the consciousness will be ready to cross the thresholds of possible errors committed which, once purified, will no longer be in the unconscious of this Universe.

I thank you for understanding the science of My Words!

Who blesses you,

Your Master and Lord, Christ Jesus
