

Sacred New Earth

On July 25, 2015, Our Lady appeared to the visionary Sister Lucía de Jesús in the Light-Community New Earth* and transmitted a Poem.

You will be called New Earth because upon your soil
redeemed spirits will walk.

You will be called New Earth because you will represent to the world
the essence of the Will of God:
the experience of love above all things
and above all errors and deviations.

You will be called New Earth because the essence of forgiveness
will rest within your purpose.

You will be called New Earth because the truth
and transparency between hearts
will be the bridge towards consecration and redemption.

New Earth that, among the deviations of the world,
was born on sacred soil,
which, among the desperation of humankind,
caused the trust in the Purpose of God to emerge.

May on your soil of love and understanding
walk those who are willing to live redemption
and witness in themselves the transformative power
of the Love of Christ.

New Earth, you exist in this world
to demonstrate to the cosmos the greatness of Creation.

From your victory may new suns ignite,
from your perseverance may redemption
and reconciliation with God emerge,
from your example may the path emerge
so this whole planet
may become the **New Earth**.

May your essence of love

expand within humble and simple hearts.

May the world see in your surrender
the true conquest of Christ,
the victory of God in the heart of humankind.

Amen.
