Daily Message received in the Marian Center of Aurora, Paysandu, Uruguay, transmitted by the Glorified Christ Jesus to the visionary Friar Elías del Sagrado Corazón de Jesús

In everything there always exists and lies the Love of God. It is this Love that generated the Creation and that once made it a reality in the Universes.

The Love of the Father is the Consciousness that brings wisdom and understanding, that brings healing and compassion to souls. In this Love lies the path to enter into the existence of each being, into the knowledge of the inner reality of each creature.

In love manifests kindness, the good and consideration for fellow being.

Love is the tree that gives seeds of peace, of charity and of Mercy.

Love acts in everything when we allow it to manifest.

Love has more attributes than love, it places us before the Truth.

Love dissolves indifference, pride and denial.

In love there is the overcoming of oneself and the overcoming of differences.

In the Love of God, we find the meaning of why we are here and the purpose for which we were created.

In love, there is only forgiveness and, in forgiveness, everybody reconciles and loves one another.

Love only tends to expand.

Love is not reduced, because love gives itself, and in the self giving is the expansion of consciousness.

I thank you for keeping the Love of God within you!

Who blesses you,

Your Master, Jesus Christ
