Daily Message received in the city of Fatima, Portugal, transmitted by the Glorified Christ Jesus to the visionary Friar Elías del Sagrado Corazón de Jesus

If you are afraid of the unknown, it is because up until now you have not loved the Will of God.

Thus, trust in all that is beyond your knowledge, control and limits.

Trust in all that comes from the Universe as instruction and let all of this become your Guiding Star in this time.

This is the great moment of knowing the unknown, of deeply knowing about your real story so that your consciousness can each day draw closer to living the degrees of love.

Open so that what is unknown may be a part of your life and so that, in this way, you may be able to understand the amplitude and the infiniteness of the Universe.

By living the unknown, you will discover how small you are in the face of all the Universe and how small your story is in light of so many galaxies and stars.

The path toward what is unknown will cause you to think about your inner process of redemption and to generate the relief that this planet needs from all the weight it has carried since distant times.

For this reason, unite with the unknown and be a precursor in the healing of humanity through your unconditional "yes", through your absolute trust and your faithfulness.

Dare to be transformed by the unknown.

I thank you for keeping My Words in your heart!

Who blesses you,

Your Master and Lord, Christ Jesus
