**Special message for the Apparition of Mary, Mother of the Sacred Tree of Life, transmitted in the Fortín of Santa Rosa, Canelones, Uruguay, to the visionary Friar Elías**

***Friar Elías:***

*When the Virgin Mary appeared to transmit the Message for the Apparition, at the dawn of July 25, our Mother manifested Herself as always, but this time She brought with Her the symbol of appearing beside a great tree, with a large green treetop. It was a robust, strong tree, full of mature fruit. At this moment, She told us She was the Mother of the Tree of Life.*

Dear children:

I am the fertile seed that is sown in the hearts that open themselves to listen to Me. When the Seed of My Heart is sown, a new flower is born that gives subtle aromas to God; and the fruit grows and matures slowly, thus giving new seeds of love and redemption.

I am the great Tree of Life. I am the Mother who gestates the New Humanity, because through My Heart you will reach God and consequently you will find in your paths the Presence of My Son.

Some of the seeds that My Tree of Life spilled were so that it could bear other new fruit, but these dried up. Therefore, My roots nourish themselves and feed on fruits that were born, in order to strengthen the great treetop that will later bear new fruit.

If the Tree of Wisdom had not been born, the Tree of Life could not have been born. I was first the sacred Seed so as to become the Flower, and later become the Fruit fertilized in the loving Heart of God.

Afterwards God sent Me through the universe to sow new seeds of light and, on this trajectory, He sent Me on a great mission to Earth, so that the second Person of God could be sown inside of Me, the First-Born Son who was and is the great Fruit of your salvation; for it is through Him that the way out in this time is found, only in Him can be found the way out and the direction to be able to fulfill the Will of God in life.

You, My dear ones, are these new fruits that are already maturing on My Tree of Life, because the fruits can never be separated from their Tree and the Tree can never be in splendor if it lacks its fruits.

Today I invite you to discover the fruit of your conversion and of your redemption. The time for the new seeds to appear is still waiting to awaken and this will be possible if the fruits are very mature, so they may give good seeds.

Throughout this planetary cycle, the power of My Grace and of My Mercy is passing before your lives so that, first of all, you can perceive it.

God expects His children to be strong and mature trees, that can bear fruit so that the most humble can serve themselves of this sacred food and thus your souls be united to Me through the great seed of service and prayer. If this did not exist, the seeds would soon dry out.

Therefore, My dear ones, in this Message I want to make you understand that you are united to the great Tree of Life, the Tree of God that holds the memory of your origins, an inner space to which you must return after all.

It is the great Tree of My Consciousness, the one that gave itself to the Father to give seeds of light and to sow them in the hearts that unite in eternal prayer. Now, the new tree of mature fruit must arise in the next humanity.

Now, you are sacred seeds in the Hands of God who, with so much love, is waiting to sow them in the new world. Therefore, dear children, understand that each act of love, service and prayer is a new fruit for your redemption and for the redemption of humanity.

Your steps must be directed to God through the pure heart, purity will cause the fruit to mature correctly and so in your beings the Spirit and the Wisdom of God will rest.

I thank all the children who with love, during this dawn, have kept vigil with Me in prayer for the fulfillment of My Plans of peace and redemption.

I thank you for responding to My call, in faith and devotion!

Mary, Mother and Queen of Peace
