DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE Sacred House of Mary, Madre Paulista, city of São Paulo, Brazil, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN

With My blue eyes of Light, placed upon the world, I deeply pray for all of humanity, for those who are consequent and also for the unaware, so that soon, through Supreme Grace, all My children may be able to go through the definitive time of acute purification.

The Grace of God will be the fortitude for those hearts that humbly pray from the heart and unite, above all, with all My plans of Peace.

Dear children, from Heaven, your Heavenly Mother still sees error spread like a poison throughout the hearts of ungrateful hearts, which seek to satiate their wills and satisfy their desires. But this will soon end.

The prayer of the Holy Rosary proclaimed by My children of the world is stopping the anger of God from being provoked, and in spite of everything continuing the same, a sort of universal conciliation is taking place among good souls and subjected souls.

It is through the Spirit of My maternal Love that the doors of the Celestial Universe are opening to help the sick world.

My children, continue to pray, with greater effort now, because in the repetition of the Hail Mary lies the celestial formula of Light that allows to placate the power of the Laws and to open the source of Mercy of your Most Holy Mother.

It is through the powerful decree of the Hail Mary that the words of the Archangel Gabriel become subtle vibrations, capable of relating the material universe with the spiritual universe.

It is through this ancient formula that the Purity and the Grace of the Mother of God descend over the world, over a region, or even over a sinning consciousness, to awaken the compassion of God and open a sincere path towards repentance and contrition as an act of redemption.

Dear children, today I leave you these keys because I know that many of you need more understanding.

If through the Hail Mary you recognize yourselves as sinners, this does not mean that you will sin again, but rather it reminds you of the importance of living Universal Laws and of never transgressing them.

Beloved children, when you recognize your sins or debts, you are affirming the need for reversing your fear of failure, damnation or abandonment of the spiritual path.

It is through My divine intervention that your eyes will open to clearly see the path of

transformation and of fusion with peace.

If humanity should see prayers with a universal spirit, in truth, the effects of the words would substitute errors and would transform tests into great lessons.

For this reason, I ask that you truly pray and do so without haste; in this way, your sacred invocations of My Immaculate Heart will cause My plans of Peace and of Mercy to triumph.

I thank you for praying to My Maternal Heart!

Who elevates you to the consciousness of prayer,

Your Mother Mary, Rose of Prayer
