### **DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS**

The soul that strives in prayer opens the Doors of Heaven and gives God the permission for higher Laws to be active on Earth.

These Laws descend to the planet through their prayerful word, pierce the deepest levels of their inner world and thus, reach those places of the world most in need, guided by the purity of intention of the prayerful soul.

To pray from the heart is to enter into the Heart of God, to stand before His Sacred Books, in which His Plan has been written for this world and for all life; in this way, in light of His Truth, the soul receives from God the gift of manifesting its designs and the Grace to do so.

To pray from the heart, even if in the void and in the desert, is to walk the path of faith which, invisible to human eyes, draws to Earth the true potential of the creatures of God.

To pray is to unite with Truth. For this reason, child, even if it is difficult for you, even if you are in the void or in an absence of all inner sensations, know that it is simply the awakening of faith that you need to experience. The faith that leads you to keep praying even in the void, the faith that places you before God, even though you may not know it, the faith that brings you closer to who you truly are.

Live this faith every day; seek to know it through the living experience of prayer done with love.

You have My blessing for this.

The Most Chaste Saint Joseph
