Daily message of Mary, Rose of Peace, transmitted in the Mount Aconcagua, Mendoza, Argentina, to the visionary Friar Elías del Sagrado Corazón

The arrival of the Aspects of God from the Universe

I would like humanity to understand the inner, universal and cosmic meaning that in certain places of the planet the Aspects of God descend, brought by the angels within great celestial spheres and placed in the most sacred places so that the spiritual consciousness of humanity may be helped, liberated and transmuted from the precarious conditions of its own spirituality and life.

Therefore, children, the descent of the Sacred Names of God, to the interior of the planet, generates a space of luminous, atomic and cellular renewal of humanity. In this way, the spiritual meaning of humanity is protected and the great spheres of the Consciousness of God bring to humanity a sense of rescue and salvation that it also needs.

In these times, the descent of the Aspects of God to the planet generates an immediate possibility of being and remaining in communion with Creation and with Life, thus being able to repair the serious mistakes that the present race makes, distancing itself from the Law and from the essence of Creation.

The Father, who is fair and merciful, comes to the world in search of union with the essential life of His children; thus helping, in every way, the unconsciousness of humanity that is deteriorated by all of the actions committed.

The Aspects of God allow the creation, within the sacred and spiritual spaces, of this new bridge that will help the creatures in the inner world to recover their affiliation with the universe and with all existence, with their true inner origin.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
