WEEKLY MESSAGE, TRANSMITTED BY MARY, QUEEN OF PEACE TO FRIAR ELÍAS

As Mother of the Universe today I bring to your hearts the universal sign of the Star of the Morning because for this time your hearts and consciousnesses will need this sign from the Father to be able to continue pilgrimages in life until the definitive encounter with My Son.

In joy My Little ones, the Lady of Heaven today forgives and absolves your deepest faults so that living the law of purification you may offer to the Father your transformation and your conversion.

Dear children, in this time of great revelations I remind you, as a lesson, of the mediating prayer because it will be important that your consciousnesses practice this exercise of inner union with the Creator God. For this today again I announce Myself to you in order to animate you to live the transformation of life in My absolute and maternal Peace.

Dears, I invite you to live in pacification, in harmony and in the Kingdom of My Peace because it will be important that your hearts irradiate this attribute and thus reach a harmonious conversion of the heart. I ask you to not fight nor battle with those human aspects that must be redeemed. Irradiate My Immaculate Love over each of them so that, little by little, in the path of faith they may be redeemed and be consecrated to the Will of God.

My children, we have entered in the cycle of purification of the world, for this peace, love and much prayer is necessary. Today I clamor to you for this from My Heart of Love because I know that you, My little ones, must learn to live them day by day.

Today also My children, I remind you to maintain your consciousnesses in peace and thus to exercise lovingly the humble state of reconciliation between brothers and sisters. Observe no longer, all the time, the indifferences in the neighbor. Do the same as My Son Jesus, love each of the mistakes with compassionate love so that they may free themselves and start a new cycle in life.

Dear children in silence I pray for you, asking day by day to the Father for your prompt conversion and redemption. Dears, if a small number of children in the world reached holiness and the full love of God the world would change entirely and the mercies would be more each time for all My children.

For this, as Mother of the Great Star of the Morning, the one which shines each new day in the celestial firmament, I ask you once more that you remember to live the compassion of the heart among each other, as brothers and sisters and servers of Christ. The world, dears, suffers all of the days and what humanity must do is to relieve the heart of the world so that the Divine Cure may happen under the Graces that My Heart pours over you from Heaven.

My dears remember also to consecrate your heart to My Heart all of the days because I will wait with joy for your simple prayers. Smile with joy to God so that in this day that ends, and under the power of My Immaculate Love, you may walk with Me in hope and mercy.

Dear children from Uruguay, I thank to you all for having honored me with love yesterday during the encounter with Me in the blessed city of Montevideo.

Let us pray for the presence of Peace!

Who loves you and encourages you in all,

Mary, Queen of Peace.
