DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF PORTO ALEGRE, RS, BRAZIL, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN?

To those who transmute as a service

Throughout time, dear children, there were consciousnesses in service to the Plan of God that, living the teachings of Christ and fully imitating Him, who were chosen by the Universe to sustain the planetary consciousness and humanity.

This service of transmutation does not involve all souls because, at this time, the source of purification is what predominates in humanity as a means of liberation from evil.

But in this century that has begun, with humanity indifferent to the plans of the Most High and all His Creative Work, the Universe itself chose groups of souls upon the planet to silently offer this service, which prevents the spiritual destruction of humanity.

Transmuting is an act of full sacrifice and a deep offering for something greater that goes beyond a consciousness, nation or continent.

The Law of Transmutation is being applied at this moment to certain groups of consciousnesses that have already gone through the school of the discipleship of Christ.

At the moment of transmutation, the soul encounters the suffering, indignation and rejection which the Celestial Father feels when His infinite Love is denied by creatures.

For this reason, nobody goes through transmutation without first having experienced strict purification, a life of prayer, service and surrender to God.

The important monasteries of the world that dedicate their lives to the service of Christ have become permanent pillars of planetary transmutation and this is divided among Christians, Buddhists and Hindus.

God places His Will in all consciousnesses that are open to recognizing the true need of these times.

The great act of transmutation of Christ was allowing Himself to be nailed to the Cross, this does not mean that you will come to this state, only that the stream of transmutation is positively polarized when there is love for what is being experienced. In this way, the project of humanity is reconfigured when there are souls that live at this time to transmute as a means of concretizing the project of this race.

Transmutation is a silent, selfless and pure school of service. It is the first step that allows the consciousness to enter a greater state of service.

Let us all pray for those who transmute because, in these times, this will become a group practice

for souls.

The strength of those who transmute is faith.

I thank you for responding to My call!

Pray for those who transmute.

Your Mother Mary, Rose of Peace
