Daily Message of Mary, Rose of Peace, transmitted in the city of Santiago de Compostela, La Coruña, Spain, to the visionary Friar Elías del Sagrado Corazón

When the soul is purified, it consecrates itself more and more to God, and His divine and infinite Plan is carried out on the surface.

When the soul is purified, it gains more spiritual strength to face the new changes.

When the soul is purified, it disconnects from everything that ties it to the past and to its ancient story.

When the soul is purified, it frees itself from everything that binds it to its conscious and unconscious plane.

When the soul is purified, it finds the path towards the light, and especially towards its divine essence.

When the soul is purified, it is much more able to resist the planetary transition.

When the soul is purified, it can experience more peace.

To go through purification is a school and a state that helps to place the consciousness on a higher level.

Purification, supported by prayer, opens doors to the new, to the sacred.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
