DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Giving birth to a new humanity is allowing your souls to express what they truly are, letting the similarity with God emerge from within and be revealed to the world and, above all, to yourselves.

Giving birth to the new humanity is loving the things of Heaven more than the things of Earth, and knowing that life in this world is just a moment in time and space and that, in order to be here, you have hidden within your spirits a story and a reality that reveals the true motive for the chaos on Earth, of duality and, above all, of the great need for love.

Contemplate this life as a moment of transition, as a school that helps you take an evolutionary leap, forgiving and healing unknown mistakes with the power of love.

The new humanity will be born to renew the genetics of all life, from a new race generated in love, and that will express this love, even with its breath. With the new humanity, life in the cosmos as on Earth will never be the same. Everything will be renewed.

The new humanity within yourselves invites you to a battle against retrograde human tendencies, against the condition of egoism and lack of love. A battle that is fought in the consciousness, mind, emotions, hearts, and even within your cells so that they give space for a new archetype of life, and comprehend that this degenerated condition of humanity must come to an end.

The new humanity within yourselves brings a new time and a new meaning for life. Embrace this transformation with gratitude and without resistance, and you will see that, where love rules, peace rules, and there lies no fear or anguish. It does not matter what happens in this world, your fortress will be sustained in the Heavens.

If you wish to open space to the new humanity, love wholly. If you do not know how to love, serve and help your fellow beings, thus, you will awaken love.

Above all, beyond loving and serving, pray, because this is the dialogue with God, and only the Father keeps you firm at this time.

Your Father and friend,

The Most Chaste Saint Joseph
