**DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF SAO CARLOS, STATE OF SAO PAULO, BRAZIL, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS**

When a spiritual and deep sorrow is healed, a liberation from the past and all its codes is established, thanks to the intercession of the Spiritual Laws of Healing.

Through the Immaculate House for the Alleviation of Suffering, I wish to establish a home where souls that have not yet found God within themselves are able to find Him through the charitable hands which will give of themselves to accompany that moment.

In this, My next Project, I would like a work of healing and of spiritual prayer to be experienced at the current nucleus with the souls that, in spiritual or physical convalescence, will need recovery.

For this reason, dear children, a second house for the relief of suffering and physical transition toward corporeal death must be founded.

I need, dear children, that this second house be called the House of Saint Lazarus, so that souls which will be experiencing their last days on Earth there, will be able to be resurrected to eternal life.

For this reason, My little ones, this task will gradually be gestated, with the hope that the servers of San Carlos and the surrounding cities, in prayer and in service, take on this important mission for the souls that do not know healing nor eternal life after death.

I need everybody to be trained, educated and prepared for that mission.

The purpose of the manifestation of the House of Saint Lazarus is a part of all people of São Paulo, which will be affiliated with the mother house of the Immaculate Mother for the Alleviation of Suffering.

I also wish to be present, as the Lady of Graces, at the entryway of the House of Saint Lazarus.

This house will shelter many souls, and in the future will go through an expansion, because My design is that the Immaculate House for the Alleviation of Suffering have other houses in other cities of São Paulo, because this task will be done so that souls may feel loved and protected at the moment of their death.

Dear children, if the people of São Paulo should take on this task of healing and of the transition of souls into the Kingdom of the Heavens, I assure you that the city of São Paulo will not need to go through so many purifications.

Once again, I invite you to embrace My aspiration.

I thank you for accompanying Me!

Who brings relief to you,

Your Mother, the Virgin Mary, Rose of Peace
