DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Children,

A few days before a very important event, I come to prepare your little hearts. I am referring to the Sacred Week with Christ Jesus.

I come to ask you to truly have your hearts ready for this moment, not just as an event, but as a meeting with the King of the Universe, Who deigns to draw closer to everybody, in Spirit and Divinity, for seven days in a row.

For humanity, the Sacred Week represents the fulfillment of the promises made by Christ more than two thousand years ago. Those who once heard His words and died in the hope of finding Him again, at the end of times, are returning to the world with Christ to finish accomplishing with Him, His holy Work on this Earth.

Children, you who hear these words, at some moment in your experiences in this world, you have accepted following in the footsteps of the Master and being participants in His redeeming project. You have accepted following in His footsteps and imitating Him in sacrifice, in humility, and in redemption, so as to attain the perfect archetype that His Divinity transmitted to the world through the living and material example of His Christification.

Although today your eyes cannot yet see Him - because you are very involved with matter and must be prepared for that - your hearts can indeed recognize Him and can fully live the transformation He proposes, if you only open yourselves to deepen into that which you experience and do not let the days go by in the superficiality which is typical of ordinary life in this three-dimensional world.

It is the love within your hearts that will allow you to transcend the ordinary ways in which the human mind faces situations in life, to discover the Sacred and Divine that there is in these instances of meeting with Christ, just as it is with all the Divine Messengers, who in truth are bearers of the Presence of God for this world.

I would like, children, to bring you this reflection so that your hearts truly go deeper into the Grace you are receiving and that you experience this Sacred Week with the holiness it proposes for you, so that you may experience something unique, an absolute union with Him Who has the authority to transform your lives forever.

I love you and I teach you to be before Him Who is worthy of all honor and glory because He surrenders Himself to this humanity every day, in sacrifice for its salvation.

Your father and friend,

The Most Chaste Saint Joseph
