**DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, TO THE VISIONARY SISTER LUCÍA DE JESÚS??????**

Love the Will of God more than yourself.

Love His Plan and what it means for the evolution of the entire Universe much beyond the development of your little soul and your little life.

Love the Plan of God with the right understanding that it aims for the evolution of the entire Cosmos and, even though you are a part of it, you are not what is most important about this Plan.

Understand that the Plan of God, for its own sake, must be fulfilled. And if the brother or sister who is next to you has a greater possibility of living the Will of the Father, help them and create the conditions so that they reach the goal, not for you or for them, but for the Plan of God.

The competitiveness of the human consciousness has taken away from many hearts the possibility of loving the Plan of God, because they love themselves and their own role in this Plan much more. They love their own possibility of living the Will of God and take care so that they themselves become the Christs of the new time, even rejoicing in the defeats of the neighbor because, knowing that these Christs will be only a few, they want to be a part of these few. What these hearts do not realize, child, is that the inner Christ is born from the forgetting of the self and from the absolute love to the other.

Love to the neighbor is born, in truth, out of love to the Plan of God. The one who truly loves the Plan cares for it and knows that all human beings are needed in its development. For this reason they rejoice in the awakening of their brothers and take care so that they develop more each day, no matter if they surpass their own evolutionary level because what matters is that the Plan is fulfilled, and not in whom it will be fulfilled.

If you want to love the neighbor, love God and His Plan. In the discovery of this love you will find the care for all the Kingdoms of Nature. You will find out that everything that has been created has a spiritual reason for existing and each living creature created by God has a unique role in His Plan. You will understand the true reason for being of all things and, although you may not know how to explain it with your mind, you will be able to feel it with your heart.

Child, love the Plan of God more than yourself. Love the Creator and allow yourself to be overflowed with this love that transcends an object or a creature and radiates to everything that has been created.

Commune with the perfection of all things, because it will be by taking care of the development of others and of the birth of Christ in your brothers that one day you will discover the Living Christ within you.

The One Who teaches you to live the Law of Love,

The Most Chaste Saint Joseph
