**DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, TO THE VISIONARY SISTER LUCÍA DE JESÚS??????**

While the hours are passing in the time of this world and the days of the Armageddon are approaching, humanity still fears sacrifice and the absolute surrender to God.

The true sacrifice and its repercussions are little understood by the human heart when it is handed over to the Celestial Altars.

Children, We call you to sacrifice and to service because most part of humanity is very far from God and His Celestial Principles. There are no longer on the planet many consciousnesses willing to abandon comfort, convenience and even the battle of the common life, the struggle for the establishment of their own purposes, of their own goals. Very few are those who put aside their own goals and their own "dreams" - which, by the name it is called, you can already understand it is part of an illusion - to, at least, try to find a divine goal for humanity and for themselves.

While the consciousness holds on to its own desires, and its aspiration remain restricted only to those things which can be adapted to its skills and abilities, it will never discover the true human potential.

The common thought of humanity is making their own skills grow, and if a person has a certain ability, they get stuck to this expression, without knowing that this is not the first time that their experience of life is based on the development of such ability. And it is in this way that, life after life, people never get out of the material development and do not come know or penetrate the Laws of spirit, the evolution of a higher being.

The Creator calls you to the unusual today, He invites you to do that which you have never thought about doing. He calls the skillful to do simple things and calls those who consider themselves simple to develop their skills, not for the skills themselves, but so that they learn to break the barriers and the limits of their own consciousnesses and to get used to live the unusual, opening themselves everyday to the new and not being afraid of fulfilling the Will of God.

The Creator calls you to overcome yourselves, to burn in the fire of His vigilance, to transcend yourselves in the love to the sublime sacrifice, the one that becomes sacred for bringing, in itself, a Higher Purpose.

The Lord leads His creatures to this experience, because He expects that does not pass one more cycle of the planet and His children be involved in the illusions of matter and in the poor human development.

The Creator calls you to overcome the limits of matter so that from this self-transcendence emerge, from the cells, the experience of the higher Laws. It is the love to sacrifice that leads you to know new laws and also the true potentialities of the human heart. But to discover and live what I tell you and make a divine gift emerge from your own cells as well as did Jesus in His Passion, it is

necessary to love sacrifice and only live it.

Reflect on what I tell you and take your steps.

I bless you.

Your Father and Friend,

The Most Chaste Saint Joseph
