DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED DURING THE JOURNEY FROM THE CITY OF MADRID TO THE CITY OF BARCELONA, SPAIN TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN

You must believe that you will achieve transformation when you simply take steps towards patience, the faithful sister of meekness.

Patience is the major art of a disciple who divests himself to follow Christ.

Seek within patience the science of peace and allow this gift and this source to inundate your being.

Through patience, the expansion of the field of consciousness is achieved, and everything becomes real and profound.

Let patience Christify your being as soon as possible, so that in this way you can assist humanity and all those in need.

Patience is not only a virtue, but it is also something that is cultivated and that allows the whole being to be prepared to take a great step. This is why all My children must have this principle in mind so that, being fully awake, they can cultivate new states of conduct.

Patience is an attribute that comes from the Father to humanity.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
