DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED DURING THE JOURNEY FROM THE CITY OF SAO PAULO TO THE MARIAN CENTER OF MINAS GERAIS, BRAZIL, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

Dear children,

There are certain past stories in the Universe that, if remembered, they would cause pain. That is why it is better to be in the present, awaiting with hope for the coming time.

What may have happened in the Universe will not solve nor will it make any creature evolve in love. Only on this school-planet, by the sacrifice of My Son, will you find the path to live your surrender, your forgiveness and your redemption awaited by the Universe.

Meanwhile, live the day to day learning as if it were the last and make of all of this experience a triumph of love for God.

It will be in this way that the past will be purified and sublimated whenever necessary, and in your own selves you will find new virtues that will give you momentum and inner strength to keep on walking in faith, in sacrifice and in the hope that you will always give your best so that this planet and this Universe may be recreated by that which each being reaches, in the school of the degrees of love.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
